

# Secrets of the opposition

Known as Alliance for the Re-liberation of Somalia

Most of the Somali tribes are welcoming the Transitional Federal Government system except one sub-sub-tribe from the southern Mudug & central Galgudud regions, which are the pillars of the opposition.

The politicians from this sub-sub-tribe are H Dahir Aweyz, Husein Aided, Ex-president Abdikasim Salad Hasan, Adan H Airow & Sh Yusuf indha'ade, which seriously worry about their political future, which they believe that they will become minority in to the future federal parliament seats and the ministerial cabinet if the federal government system and it's district-level elections took-place effectively in the country. Because, their political ambitions are not applicable to their limited home settlements & districts, which are less than four districts that they mostly abandoned.

These politicians, mostly they don't mention how the federal system will affect them, but they usually mention other common problem such as the enforcement of Islamic sharia (law) and the re-liberation of Somalia from Ethiopia as to misguide the Somali people and the international community until they reach their political goals.

Since the last decade they were occupying to the southern regions and were attempting to establish a some sort of top to bottom based government system like the former Somali military government led by the President Siyad Bare, which they designated to the late general Aided for the establishment of military government that he failed.

Their second alternative was the formation of the former Islamic Court Union, which they appointed to the colonel Shiekh Hassan Dahir Aweys for the execution of the Islamic revolution that technically copied from the Iranian Islamic Revolution system led by the Sheikh Ayatulah Khomeini, which was ruling powerfully the Iranian people under a dictatorship council that called majliz-shura. On June 2006 Colonel

Aweys has founded Islamic Court Union and tried to rule the country under a dictatorship council that he called Majliz-shura, which finally destroyed by the TFG troops and the allied Ethiopian troops.

Their third alternative is the ongoing chaos, which they assigned to the groups called Al-shabab & Muqawimo for the destruction of the federal government system, terrorization of the people, chaos and the long-lasting civil war.

But, their last alternative is the formations of the ARS Alliance for the Re-liberation of Somalia, which consist of the former Islamic court union & the former transitional federal assembly members & juniors from the Diaspora that they pledged political posts as to steer them into their pre-planned political strategy through covered leaders (Shekh Shariif & Sharif Hasan) that they specially appointed in Asmara, Eritrea.

Obviously, when their political goals get closer they will call Shekh Sharif, Sharif Hassan, Zakaria & M Tarsan the four spies, the four jokers or the four

detectives as to eliminate and avoid from the top political posts of the expecting Somali government, but, it may be possible that Mr Shekh Shariif and his colleague will apply other tactics against that motion.

Sooner or later the opposition of the TFG currently known as ARS will divide into several groups and partially will joint the TFG as to reform its system in to some sort of decentralization government.
